

5MM NEOPRENE GLOVES

Stay warm and protected with the Northern Diver 5mm Neoprene Diving Gloves. Designed for scuba diving and a wide range of watersports, they deliver excellent warmth, comfort and durability at an affordable price.

Constructed from 5mm flexible neoprene with a soft thermal lining, they provide reliable insulation while maintaining the dexterity needed to operate diving equipment. Reinforced palms, fingers and thumb offer enhanced grip and abrasion resistance, making them ideal for regular diving and shore entries.

An adjustable hook and loop wrist fastening with an elasticated wrist-lock strap helps reduce water flushing and provides a secure fit. Suitable for use with wetsuits and drysuits, these versatile gloves are also ideal for snorkelling, kayaking, paddleboarding and other watersports.

FEATURES

- Premium 5mm flexible neoprene construction
- Thermal inner lining for enhanced warmth and comfort
- Heavy-duty coated palm, fingers and thumb for improved durability
- Polymer-printed palm reinforcement for superior grip
- Adjustable hook and loop wrist fastening
- Elasticated wrist-lock strap helps minimise water ingress
- Flat-profile robust seams for long-lasting performance
- Excellent dexterity for handling diving equipment
- Available in sizes S-XXL
