

DEEP VISION MASK

Our Deep Vision mask has a twin 'extended' lens, low volume design.

The extended lens design gives an improved field of vision, allowing easier viewing of gauges, consoles etc.

Manufactured from 'transparent' surgical grade silicone, for a comfortable fit on a variety of different face shapes/sizes.

Available in four striking colours, and supplied in a durable 'hard' transportation case.

- Twin extended lens
- Low volume design
- Extended field of vision
- Surgical grade silicone
- Fits a wide range of face shapes
