

# EVE LADIES BCD

A BCD for women, designed with extra padding for maximum diving comfort. Made out of 1680/420 denier nylon BCD, this product is very hard wearing.

The Eve has twelve D rings, six of which are stainless steel. There's also two generous zipped pockets and four methods for air dumping.

The jacket's two integrated quick-release weight pockets and two rear trim weight pockets give a wide range of weight options.

To top it off, the BCD features a rugged, striking outer layer on the side panels, and it's supplied with a Northern Diver carry bag.
