

INST 5 WRIST COMPASS

Compact, durable, and easy to read, the INST-5 Wrist Compass Gauge is an essential navigation tool for divers operating in all conditions. Designed with a large, clear display and bold compass markings, it allows for quick and accurate underwater readings at a glance.

The rotating bezel with index marks ensures smooth, precise navigation, while the luminescent face enhances visibility in low-light environments. Housed in a rugged wrist-mounted rubber boot, the INST-5 stays securely in place and is comfortable to wear with or without a wetsuit or drysuit. Its streamlined design minimizes drag and clutter, making it ideal for recreational, technical, or professional divers who demand reliability and simplicity from their equipment.

Whether you're navigating wrecks, conducting underwater surveys, or simply keeping your bearings on a dive, the INST-5 offers dependable performance when it matters most.
