

300 LUMENS MINI QUEST DIVING TORCH

Designed for recreational and professional divers, the Northern Diver Mini Quest 300 Lumen LED Dive Torch delivers a focused 300-lumen spot beam for excellent visibility during night dives, wreck exploration and low-visibility conditions.

Built with a durable polycarbonate body, marine-grade aluminium head and double O-ring seals, it's depth-rated to 95m (312ft) for reliable performance in demanding environments. Powered by 4 AA batteries (included), it provides up to 8.5 hours of runtime, with full brightness for approximately 3.5 hours before gradually reducing output. A rear-mounted magnetic switch ensures easy operation with diving gloves, while compatibility with an optional helmet mount and Odyssey Full Face Mask makes it ideal for hands-free use.

FEATURES

- 300-lumen high-output LED dive torch.
- Powerful focused spot beam for excellent underwater visibility.
- Up to 8.5 hours continuous runtime.
- Full brightness maintained for approximately 3.5 hours.
- Depth tested to 95m (311.7ft)
- Philips Lumileds 3W Luxeon LED.
- Rugged polycarbonate body with aluminium head.
- Double O-ring waterproof sealing.
- Rear magnetic switch for easy operation with gloves.
- Size: 19*5*4cm (7.5*2.0*1.6 in)
- Weight: 327g (0.72lb)
- Includes 4 AA alkaline batteries and optional helmet mount compatibility.
