

3MM STORM X-FIRE GENTS SHORTIE

The Northern Diver 3mm Storm X-Fire Gents Shortie Wetsuit is designed for warm-water diving, snorkelling and summer watersports, offering an excellent balance of warmth, flexibility and comfort. Made from quality 3mm neoprene with durable flatlock stitched seams, it provides reliable insulation while allowing unrestricted movement.

A rear-entry zip with an extended pull cord makes the wetsuit easy to put on, while the internal zip panel and adjustable hook and loop collar help reduce water ingress and improve comfort. The short sleeve and short leg design makes it an ideal choice for UK summer diving, tropical holidays and a wide range of watersports.
