apollo bio seals

DO YOU GET NECK & WRIST TRICKLE?

Heralded by DIVER magazine as “truly keeping the water out”. Some divers may experience a trickle of water down their seals now and again, usually as a result of a channel caused by a tendon. Hopefully not for much longer.

Apollo bio seals combat water ingress and work excellently. The seals simply slide over your neck and wrists, and form an effective bond with your drysuit seal, whether you use neoprene or latex seals.

The Cosmo-gel that the seals are made from is super soft and super stretchy (1300% - 1500% stretch). As you could deduce, they are very comfortable and mould to your skin brilliantly. On top of this, durability isn't compromised. This product is latex free.

ELECTRACORE

3.0mm Rechargeable Heated Vest provides heat to give complete warmth to the body when working in cold conditions.

The Northern Diver 'Electracore' heated vest has been designed and manufactured with your comfort and warmth in mind. The three heat settings allow you to pick a temperature that suits you and if it happens that you want to raise or lower the temperature, the switch has been positioned in an easy to reach position to the left of your midriff – ensuring that even when you're wearing your rescue suit, the button remains easy to access.

The 'Electracore' has been made using a flexible 3.0mm black neoprene shell along with a snug fleece inner lining maintaining comfort for the user, whilst also insulating and reflecting the heat back on to the body, so even if the vest is turned off, there will still be noticeable thermal benefits.

The colour of the On/Off button will identify the heat of the vest. With up to a ten-hour run time, the 'Smart' Lithium-Ion battery will last for several dives.

The built in heat panels are waterproof, CE approved and conforms to EN 61000-6-1:2019, EN 61000-6-3:2007/A 1 :2011/AC:2012. Note the battery is not waterproof. This garment has been designed to be worn underneath a dry suit when being used in and around water.

Why use a heated vest?

- Working efficiency increases
- Working safety increases
- Mobility is better (no need for multiple layers)
- Comfort increases

MARLIN OPENWATER TRIATHLON SWIM WETSUITS

MARLIN OPENWATER TRIATHLON WETSUITS

CODE: TRIATHLON-G-SIZE or TRIATHLON-L-SIZE

We have been designing and producing world-class wetsuits for over 45 years and are proud to present our latest innovation, the Marlin Triathlon suit.

Our men's suit has been intricately designed to perfectly work in conjunction with the male body, ensuring unparalleled freedom of movement, comfort, and ultimately, performance. It is the ideal suit for triathlons and all open water swimming.

We created two versions of the suit as it was vital to consider the differences between the male and female body frame and shape, a one-size-fits-all approach would not suffice for the serious triathlete and open water swimmer.

FEATURES

- Constructed from Yamamoto #30, #40 SCS and Aerodome neoprene
- Wetsuit panels range from 2.0mm to 5.0mm
- Triple glued & taped seams
- Glide through the water more efficiently and with zero drag
- Reduces body heat loss with the metallic alloy barrier
- Cuffs and ankles designed to be trimmable
- YKK® zip with long zip puller & Velcro to secure
- Protective inner zip flap
- Open water visibility with bright blue shoulder/arm panels
- Quick easy on. Easy off – which eases frustration
- Smooth overprint pattern on cuffs, back panel and underarms
- Mesh storage bag included
- Available in mens and womens cuts

SIZE: S, M, L, XL, XXL

WOMENS £190.00

MENS £195.00

WHY THE MARLIN TRIATHLON WETSUIT?

The Marlin Triathlon suit has an impressive history of success – providing a solid foundation on which we have built upon. In the early 2000's the previous design of this suit was worn by top triathletes such as Faris Al Sultan (2005 Ford Ironman Kona World Champion), and Christof Wandratsch, who set the (then) world record for the fastest ever swim of the English Channel in 2005.

You can expect even more from our brand-new suit. We have taken our old design and revolutionised it, incorporating the latest features and high-end construction to create a modern-day, world-class triathlon suit.

DRY GLOVE RING SYSTEM

Suitable for both arctic conditions & contaminated water environments.

CODE: GLDRY-SYSTEM-VERSION-SIZE

SIZE: S, M, L, XL

£94.00

Loss of movement or manual dexterity, due to cold hands, can be dangerous during a dive, as well as being uncomfortable for the diver. Maintaining hand warmth and a divers ability to efficiently operate their essential diving equipment, is vital to safe diving and maintaining a high level of dive comfort. Northern Diver are proud to manufacture and continue to innovate our revolutionary concept in dry diving glove systems.

Fitting this dry glove system to your own drysuit is easy, as the package includes the unique bespoke fitting tool, sealing adhesive and a sealing adhesive application brush.

Compatible with neoprene or membrane drysuits, using latex or neoprene wrist seals. Once fitted to a divers suit, the unique twin-safe locking ring mechanism, allows quick and easy glove engagement and the equally quick release of the dry gloves, without the need for assistance.

Gloves conform to the requirements of European Directive 89/686/EEC and to the European standards EN420:2003 + A1:2009 and EN374:2003, EN388:2003

Ansell Extra™ glove

CUFF RING SYSTEM AVAILABLE WITH LATEX WRIST SEALS OR PROTECTIVE CUT RESISTANT GLOVES

Developed to ensure that a user can quickly and easily remove the seals from a drysuit and replace with new seals/gloves in the field. Attached directly to the drysuit the permanent wrist rings mate with seals or gloves. The gloves have excellent resistance to abrasion, acids, alkalis, cutting oils and petrol.

PRO-SAFE WATER RESCUE BOOTS

CERTIFIED TO EN 20345:2011

CODE: BOOT-PROSAFE-SIZE

Our latest design of water safety boot. Provides exceptional comfort, control, grip and protection in water and on land. Featuring the Freelock fast lace system and wide opening makes the process of putting on the boots super quick.

Composite mid-sole and toe protection make the boots extremely lightweight and additional layers along the side of the boot keeps the foot securely in place. The lacing system is a super strong synthetic weave which will last the life of the boots. Layers along the front and sides of the boot help withstand knocks and sharp objects from puncturing or scraping the boots.

Build: synthetic leather, PU heel, mesh inner
Anti-static, oil resistant/slip resistant outsole
Double stitched seams for added strength
Lightweight composite mid-sole/toe protection
Penetration-resistant mid sole
Padded ankle collar for extra ankle protection
Reinforced PU outer heel cage
Freelock fast lace system
Low-profile to ensure no snag hazards
3 generous reinforced mesh drainage holes
Ventilated & moulded foot bed
Extra long pull on loop - easy use with gloves
Weight: 600g (1.3lbs) per boot

SIZE: UK 4-14

£101.00

FREESTYLE SAFETY WATER RESCUE BOOT

CODE: BOOT-CANYON-SIZE

Provides comfort, control and protection, allowing rescue professionals to feel confident to perform their tasks on dry land or in/around water. Built using both synthetic and natural materials, which conform to EN ISO 20345:2011.

Lightweight, protected toe-caps
S3 slip resistance
Conform to the SB, S1 and S2 requirements
High quality rubber EVA non-slip sole and composite toe
Exceptional grip on wet or unstable surfaces, moss, seaweed and many other hazardous surfaces
Impact resistant to 200 joules, antistatic and have water absorption/water penetration properties
Energy absorption around the heel
Strengthened stitch seams for long term durability
Abrasion resistant with external heel protection
Wicked inner lining and drain holes on the inner side
Neoprene insoles provide extra comfort
Velcro closing straps for a quick release system

SIZE: UK 3-14

£94.00

ROCK SWIM SAFETY BOOTS

CODE: BOOT-COMPOSITE2-SIZE

Complies with the EC directive for Personal Protective Equipment (Directive 89/686/EEC) and meets the requirements of the European standard EN ISO 20345:2004.

All terrain boots
Expels water through the side vents to increase comfort
Allows wearer to perform tasks on dry land, in/under water
Can be worn with/without socks
Fins can be directly fitted over the boots
Far greater protection than the standard rock swim boots, essential when more substantial PPE is required
Maximum comfort & control
Composite toe & mid-sole foil
Rugged hi-grip heavy-duty outer sole
Oil and chemical resistant
Suitable for use in/out of water (fitted with drain holes)
Multi-point Velcro securing straps
External ankle protection
Cladding protection on heel, toe & sides
Fabric: nylon and synthetics

SIZE: UK 5-13

£76.00

ROCK SWIM BOOTS

CODE: MOD-BOOT2-SIZE

Designed to be used with most models of drysuit, with attached latex or neoprene socks or material socks. These boots expel water post-dive, for additional foot protection (after diving) on a boat deck or back on land.

Offers the user excellent grip on boats & boarding ladders. Comfortable to wear for swimming and diving. Ideal for all terrains and our ISBO military fins are ideal to wear with these boots.

Suitable for use in/out of water
Lace up
Multi-point 'Velcro' securing straps & ankle strap
Fitted internal neoprene socks
Rugged hi-grip heavy-duty outer sole
Oil and chemical resistant
External ankle protection
Cladding protection on heel, toe & sides
Drainage points on both sides of the boot
Fabric: nylon and synthetics

SIZE: UK 5-13

£68.00

WETSUIT BOOTS

AVAILABLE IN SIZES UK3-13

160L + 110L NDB5 MILITARY HOLDALLS

CODE: NDB5-COLOUR-HOLDALL or NDB5-COLOUR-SHORT

Our NDB5 bag range is constructed from PVC top spec material and is fully washable inside and out. This strong and spacious holdall is ready for action across a wide range of transport scenarios. It's capacity should swallow up your bulky gear with ease.

These bags are renowned for their robust construction and durability making them the first choice for countless divers all over the world and are also supplied to the UK MOD who only use the best.

- Spacious main and smaller end compartments
- D-zip opening with weather protective zipper flap
- Internal mesh pockets
- Additional reinforcement on the base
- Comfortable top-mounted carry handle

FULL FACE MASKS

ND PARTNERS

OTS GUARDIAN

CODE: OTS-GRD-COLOUR

Designed to meet the demanding needs of today's Commercial/Professional Diver, it leverages the best features found on other FFMs with unique features designed by OTS.

Removable 2nd stage for easy cleaning and storage (can't be used w/o mask)

Made of a one-piece, non-rigid silicone skirt combined with injection-moulded, high-impact, glass-filled ABS plastic frame and regulator housing

A double face seal and slightly smaller oral nasal cavity to fit most faces

Equalization occurs through a nose block.

Air flow is directed up over the visor to eliminate fogging and through one-way valves in the oral nasal pocket to reduce CO2 retention.

2nd stage comes off the right shoulder and uses a standard LP hose

Includes a communications port for easy installation of a Buddy Phone® or ear/microphone assembly to connect an Diver Communications Unit such as the Aquacom® SSB-2010

INCLUDES:

Ambient breathing valve®, mask bag and LP hose

COLOUR: BLK/YELL, RED/BLK, BLUE/BLK, BLK.BLUE, PINK/BLK, BLK/BLK

CODE: OTS-SFM-BB-920036-MODEL

The Spectrum Mask from OTS has created the best of both worlds for divers. You can enjoy the benefits and luxury of a FFM while also using your own regulators, thus eliminating the large costs usually associated with Full Face Masks. Ocean Technology Systems say they've created the best FFM on the market and it's the Spectrum.

- Easily avoid having a dry mouth or jaw fatigue
- Offers clear communications (optional)
- Improved fit due to the double seal
- Five-point head harness provides a comfortable and adjustable fit, but still allows easy release in the event of an emergency
- Full Face Mask (FFM) design
- Visor provides an exceptional and wide field of vision
- Secure 5-point head harness
- Suitable for cold water diving applications
- Coated tempered glass/Iridium safety visor
- Silicone skirt
- Polyphenylene sulfide (PPS) upper/lower visor clamps
- Tempered glass or Iridium visor/lens
- EPDM (natural rubber blend) strap and mask
- Glass filled Zytel® buckles and buckle locks
- Glass filled Zytel® inner frame

COLOUR: BLACK, BLUE (CLEAR or COATED lens)

£515.00

SWITCH BLOCK

CODE: ND0000772

Build: brass CZ121 body/connectors, acetal rack/pinion, stainless steel 316L circlip/spring and ball bearing, NBR Nitrile O-rings, a bright chrome plate finish and a weight of 230g Ergonomically designed to a single point breathing system Developed to allow the diver to switch from main cylinder to reserve with one handed easy action
Fits an AGA or OTS mask

£350.00

OTS EYEWEAR KIT FOR GUARDIAN FFM

CODE: OTS-EYE-33

Add your prescription lenses to wire frames in your OTS Guardian Full Face Mask

Enjoy a clear view underwater with securely mounted, custom engineered and field-tested prescription ready eye gear Patented compression lock screws for a secure lens fit. User friendly-installs in seconds

£135.00

OTS ABV® FOR SPECTRUM FULL FACE MASK

CODE: OTS-ABV-SFM-879110-000

Everything you need to start conserving air

It enables a diver to conserve air on the surface A diver can breathe normally without removing the FFM and without using the air from their primary air source A check valve on the ABV allows ambient air to enter the valve; air is then exhaled out through the reg

£164.00

TORCH MOUNTING RAIL

CODE: MOD-0280-AGA RAIL or FFM-GUARDIAN-RAIL

Compatible with the OTS Guardian or Interspiro AGA Divator full face masks

Mount various accessories such as lights and cameras

Allows the diver to use both hands more freely

Features an up/down adjustable slider

No tools required to attach the rail system to the mask

Includes a universal and Mini Quest torch mount

AGA **£50.00** | OTS **£83.00**

OTS FULL FACE MASK BAG

CODE: OTS-GRD-BAG

420D nylon with polypro webbing and corrosion resistant plastic hardware

D-rings, strap hooks, tri-glide and zipper sliders

Closed cell foam padding and a shoulder strap

Drain holes in the bottom

Dimensions: 39*24*16cm (15.4*9.4*6.3")

Weight: 0.319kg (0.7lb)

£52.00

HALF FACE MASKS & SNORKELS

BIO METAL STEALTH PRO

CODE: MASK-BIO-PRO-STEALTH-VERSION

Matt finished frame with type-D flange: low 100cc volume and AR (Anti-Reflection) lens
Avoids reflection from search lights or when an operator is covertly approaching a target
Available in pro and non mag variants

COLOUR: BLK

£232.00

BIO METAL PRO

CODE: MASK-BIO-METAL-COLOUR

Strong, slim-line aluminium frame
Soft silicone skirt
Wide split style mask strap
Easy adjust 1-touch buckles
Low 100cc volume

Slim pillar for improves field of vision

COLOUR: BLUE, PRPLE, BRWN, GRN

£121.00

PHANTOM CLEAR VISION

CODE: MASK-BIO-METAL-COLOUR

Rounded lens > superb field of vision
Coated lenses
Anti-fog technology
Soft silicone facial skirt & strap
Double feather-edge seal for comfort
Patented push-button buckles

COLOUR: BLK

£33.00

4-WINDOW 413

CODE: MASK-MS413-COLOUR

Unique twin split lens design
Panoramic field of vision
Surgical grade silicone
Fits a wide range of face shapes
Comfortable fit

COLOUR: BLK, BLUE, RUBY

£31.00

MILITARY M235

CODE: MASK-MS235-BLACK

Twin extended lens
Low volume design
Excellent field of vision
Surgical grade silicone
Fits a wide range of face shapes

COLOUR: BLK

£30.00

HALF FACE MASKS

PRO VISION W/CAMERA MOUNT

CODE: MASK-PRO-VISION

Tempered impact resistant glass lenses with integrated 3-prong mount for camera (camera not included)

Flexible soft silicone skirt

Adjustable buckle for comfort fit & seal

COLOUR: BLK

£22.00

DEEP VISION

CODE: MASK-DEEP-VISION-COLOUR

Unique twin extended lens

Low volume design

Extended field of vision

Surgical grade silicone

Fits a wide range of face shapes

Comfortable fit

COLOUR: BLK, BLUE, YELL, RED

£18.00

CRYSTAL M23

CODE: MASK-23-C

Frame-less single window design

Allows mask to fit closer to users face

Excellent field of vision

Easy purging of water inside mask

Surgical grade silicone

Fits a wide range of face shapes

COLOUR: CLEAR

£17.00

BRAVA

CODE: MASK-BRAVA-COLOUR

Low volume and wide field of vision

Soft silicone skirt = comfort/perfect fit

Patented push-button buckles allow

easy, quick strap adjustment

Anti-fog tech provides clarity of vision

COLOUR: BLK, CLEAR, PINK, WHITE

£26.00

CLASSIC FRAMELESS

CODE: MASK-M112B-BLACK

High grade tempered glass

Anti-scratch and shatterproof

Frameless single lens gives expansive field of view

Extremely small internal volume

Soft silicone skirt and single lever buckle

COLOUR: BLK

£33.00

GOGGLES & SNORKELS

SEAL XP GOGGLES

CODE: SEAL XP

Clear lenses provide 180deg visibility
For use indoors or low light situations
Watertight skirt, low profile
One-piece molded construction
Unique Plexisol lens provides 100%
UVA and UVB protection
COLOUR: BLK/GREEN

£25.00

BRAVA

CODE: SNORKEL-SN1084-COLOUR

Streamlined oval-shaped barrel
Semi-dry top with splash-guard
Patented quick-release, swivel keeper
Silicone flex-section and mouthpiece
Easy purge system with large self
draining chamber
COLOUR: WHITE, PINK

£13.00

DRY TOP PURGE

CODE: SNORKEL-1239-COLOUR

Hinged valve that prevents water
entering the snorkel while submerged
Quick-release clip
Easy to connect to the mask strap
Crystal silicone flex section
One way purge valve
COLOUR: BLK, BLUE, YELL

£14.00

SNAKEHEAD

CODE: SNORKEL-1030-COLOUR

Drop away non return valve for easy
purging of water
Flexi-tube offers comfort to the diver
Splash guard
Replaceable mouthpiece
COLOUR: BLK, GREY, YELL, GREEN

£14.00

J-TYPE

CODE: MOD-ITEM 9 SNORKEL ASSY TUBE

Designed for the military
Rigid all black construction
No valve
Ideal for use in fast flowing waters and
seas with high salt content
COLOUR: BLK

£8.50

Check out our website for the latest range of SCUBAPRO equipment we are stocking
www.ndiver.com/diving-equipment/scubapro

DUAL CODA FIN

CODE: FIN-CODA-V2-SIZE

Designed to keep you swimming for longer
 Less fatigue during the dive, little risk of cramps
 Maximum propulsion with minimum effort
 Efficient split-fin design
 Superb power and performance
 Non-magnetic design ideal for Military use
 Heavy duty build quality - specially formulated thermal plastic rubber, fine-tuned to give an excellent balance between flexibility and rigidity
 Slice through the water with minimal resistance
 A smooth and stable kicking motion
 Drag-reducing vents where foot pocket and blade meet radically decrease drag
 Full manoeuvrability for both slow and rapid movements in the water
 Quick-connect swivel buckles allow for easy donning and doffing

COLOUR: BLK

SIZE: M (UK 4-6), L (UK 7-10), XL (UK 11+)

£137.00

APOLLO BIO RANGER FIN

CODE: FIN-BIO FIN RANGER SIZE

100% natural rubber
 Dynamic split blade technology – reduces fatigue
 Secure stainless steel spring straps
 Comfortable foot pocket with anti-slip high traction sole (easy to walk in)
 Fits both Amphibious boots and standard Military footwear
 Low magnetic permeability for EOD
COLOUR: BLK
SIZE: M/L (UK 7-10), L/XL (UK 9-13+)

£265.00

APOLLO BIO FIN

CODE: MOD-FIN-BIO-SIZE-BLACK

Increases bottom time and cruise speeds, 100% rubber construction
 Improves ability to swim against strong currents and safety
 High performance, 20° blade angle
 Comfortable to wear on the surface
 Improves efficiency for free divers
 Up to 40% reduction in muscle fatigue
COLOUR: BLK
SIZE: XS (UK 5-6), S (UK 6-7), M (UK 7-8), L (UK 8-9), XL (UK 10-11+)

£152.00

FINS & FIN STRAPS

JET FIN

CODE: FIN-JETFIN-SIZE or FIN-JETFIN-QR-SIZE
x2 buckle styles (metal or plastic)
Tested in extreme diving conditions
Manufactured from high quality rubber
Exceptional finning power, robust and superb endurance
Vented design decreases drag on up stroke and enhances thrust on down stroke

COLOUR: BLK

SIZE: M (UK 4-5), L (UK 6-7), XL (UK 8-9), XXL (UK 9-10), XXXL (UK 11+)

£55.00

POWER FIN

CODE: FIN-2081-SIZE-COLOUR
Twin blades joined with a soft middle section, allowing independent movement of each blade
Powerful thrust
Easy manoeuvring
Comfortable foot pocket
Adjustable quick release fins straps

COLOUR: BLUE, SILVER, YELL

SIZE: S/M (UK 4-6), M/L UK (7-9), L/XL (UK 9-11), XXL (UK 11+)

£22.00

TROPICAL FIN

CODE: FIN-POOL-COLOUR SIZE
Offer excellent all-round performance
Lightweight with full foot pocket
Soft TPR material
Anti-skid sole
Flexible centre channel for independent thrust from each blade
Vents with a channel design aid movement, accelerating water over fin

COLOUR: BLK, NAVY BLUE

SIZE: S (UK 5-7), M (UK 7-9), L (UK 9-11), XL (UK 11-13+)

£28.00

SPRING FIN STRAPS

CODE: FINSTRAP SPRING SIZE or FIN-SPRING-SIZE
Plastic or metal buckles
Quick release
Designed to make it easier to put on/remove fins
Fits to most brands of fin
Flexible rubber curves around the ankle

COLOUR: BLK

SIZE: S (UK 6-8), M (UK 9-11), L (UK 12-14), XL (UK 14+) (sold in pair)

METAL £18.00

PLASTIC £25.00

CODA FIN STRAPS

CODE: FINSTRAP-CODA
Unique pin design for entering waters from high altitude without the risk of damage or loss of the pin
Compatible with the CODA fins supplied by Ndiver
Rubber strap fits comfortably around the users ankle

COLOUR: BLK

SIZE: ONE (pair)

£8.80

RUBBER FIN STRAPS

CODE: FINSTRAP1
An essential item for your dive spares kit or scuba diving tool box
High quality rubber construction

COLOUR: BLK

SIZE: ONE (pair)

METAL RETAINING BUCKLES

CODE: FIN-JETFIN BUCKLE
Designed for the Jet fins
An essential item for your dive spares kit
Stainless steel construction

COLOUR: SILVER

SIZE: ONE (pair)

£2.30

GUARDIAN

CODE: BCD-GUARDIAN15-SIZE

Fabric build: 1680D/1000D nylon
 Ergonomically designed power inflator system, comprises LP/corrugated hoses, inflate/dump buttons, mouthpiece and Hook and Loop fastening retainer
 3 pull dumps: shoulder, power inflator and kidney
 13 D-rings: 9 stainless steel, 4 CETL plastic, 2 side clips
 2 integrated quick-release weight pockets
 Weight pocket capacity: 4kg (8.9lbs) lead block, 5kg (11lbs) lead shot
 2 rear trim weight pockets (non-dump)
 Trim weight pocket capacity: 2kg (4.4lbs) lead block, 2.3kg (5.1lbs) lead shot
 Single cylinder housing (BCD suitable for use with a pony cylinder as an additional cylinder)
 Reinforced webbing cylinder cam band with removable pocket for the Northern Diver Flexi-Light (Flexi-Light not included)
 Adjustable hook and loop fastening webbing waist strap
 Adjustable webbing waist, chest and shoulder straps with side-release clips
 Sliders for vertical adjustment of chest strap
 Padded shoulder straps
 Moulded Protection Plate a moulded, padded back plate
 2 large zipped pockets
 Removable bungee cord with split ring attachment point
 Supplied with Northern Diver carry bag

SIZE: DRY WEIGHT: M= 3.9kg (8.6lbs), L= 4kg (8.8lbs), XL= 4.3kg (9.5lbs). LIFT: M= 12.2kg (26.9lbs), L= 22.4kg (49.4lbs), XL= 27.5kg (60.6lbs)

£352.00

FLIGHT

CODE: BCD-FLIGHT-SIZE

Fabric build: 420D nylon
 Ergonomically designed power inflator system, comprises LP/corrugated hoses, inflate/dump buttons, mouthpiece and hook and loop fastening retainer
 3 pull dumps: shoulder, power inflator and kidney
 15 CETL plastic D-rings
 2 integrated quick-release weight pockets
 Weight pocket capacity: 4kg (8.9lbs) lead block, 5kg (11lbs) lead shot
 Single cylinder housing (BCD suitable for use with a pony cylinder as an additional cylinder)
 Reinforced webbing cylinder cam band with removable pocket for the Northern Diver Flexi-Light (light not inc)
 Adjustable hook and loop fastening webbing waist strap
 Adjustable webbing waist, chest and shoulder straps with side-release clips
 Sliders for vertical adjustment of chest strap
 Padded shoulder straps
 Moulded Protection Plate a moulded, padded back plate
 2 large zipped pockets
 Subtle reflective piping on side panels
 Removable bungee cord with split ring attachment point
 Supplied with Northern Diver carry bag

SIZE:
 DRY WEIGHT: M= 2.7kg (6lbs), L= 2.7kg (6lbs), XL= 2.9kg (6.4lbs).
 LIFT: M= 12.2kg (26.9lbs), L= 22.4kg (49.4lbs), XL= 27.5kg (60.6lbs)

£299.00

BUOYANCY CONTROL DEVICES

QUICK RELEASE WEIGHT POCKET (SPARE)

CODE: BCD-POCKET

Compatible with Guardian BCDs

SIZE: ONE, 230*110*40mm (9.1*4.3*1.6")

£15.00 (each)

SHOCK CORD

CODE: CLIP SHOCK LINE - BLUE

Heavy-duty flexible and extendable shock line, with multiple attachment options

SIZE: ONE

£12.50

BCD POWER INFLATOR SYSTEM

CODE: BCD-POWER INFLATOR or BCD-INFLATOR ONLY-AIR HORN

A useful item for your dive spares kit, 54mm shoulder dump valve thread.

SIZE: ONE

FULL £66.00 | INFLATOR £29.00

INFLATION HOSE (BCD + WINGS)

CODE: NDA-NEW NDA 40" HOSE or NDA-NEW NDA HOSE STD

Low pressure BCD inflation hose

SIZE: L (33" - 85cm), XL (40" - 100cm)

LARGE £17.00 | XL £18.00

EVE

CODE: BCD-EVE-SIZE

Fabric build: 1680D/420D nylon

Ergonomically designed power inflator system, comprises LP/corrugated hoses, inflate/dump buttons, mouthpiece and Hook and Loop Fastening retainer

3 pull dumps: shoulder, power inflator and kidney

12 D-rings: 6 stainless steel, 6 CETL plastic

2 integrated quick-release weight pockets

Weight pocket capacity: 4.5kg (9.9lbs) lead block,

5.5kg (12.1lbs) lead shot

2 rear trim weight pockets (non-dump)

Trim weight pocket capacity: 2kg (4.4lbs) lead block,

2.3kg (5.1lbs) lead shot

Single cylinder housing (BCD suitable for use with a pony cylinder as an additional cylinder)

Reinforced webbing cylinder cam band with removable pocket for the Northern Diver Flexi-Light (Flexi-Light not included)

Easy Evacuation System (EES) an easy-access pull handle, for use by another diver to quickly release the wearer

Adjustable hook and loop fastening webbing waist strap

Adjustable webbing waist, chest and shoulder straps

Sliders for vertical adjustment of chest strap

Extra-padded shoulder straps and jacket sides

Moulded, extra-padded back plate with tricot mesh finish

2 large zipped pockets

Removable bungee cord with split ring attachment point

Supplied with Northern Diver carry bag

SIZE: DRY WEIGHT: S= 3.2kg (7.1lbs), M= 3.4kg (7.5lbs), L= 3.6kg (7.9lbs), XL= 3.8kg (8.4lbs). LIFT: S= 11.2kg (24.5lbs), M= 13.2kg (29.1lbs), L= 14.2kg (31.3lbs), XL= 16.3kg (35.9lbs)

£352.00

GUARDIAN JUNIOR/KIDS BCD

CODE: BCD-GUARDIAN-JR

Build: 600D polyester/420D nylon
 Dry weight: 2.3kg (5.1lbs)
 Lift: 8.1kg (17.9lbs)
 Ergonomically designed mini power inflator system, comprises LP/corrugated hoses, inflate/dump buttons, mouthpiece and Velcro retainer
 3 pull dumps: shoulder, power inflator and kidney
 14 CETL plastic D-rings
 Single cylinder housing (BCD suitable for use with a pony cylinder as an additional cylinder)
 Reinforced webbing cylinder cam band with removable pocket for the Northern Diver Flexi-Light EES (Easy Evacuation System) - an easy-access pull handle, located at the top of the protection plate
 Adjustable webbing waist, chest and shoulder straps with side-release clips
 Sliders for vertical adjustment of chest strap
 Padded shoulder straps
 Moulded protection back plate
 2 large zipped pockets
 Supplied with Northern Diver carry bag

SIZE: ONE adjustable 12-14yrs

£231.00

42lb SIDEMOUNT

CODE: SIDEMOUNT

Perfect for narrow wreck passages and caves

Fabric build: 1680D nylon
 Ergonomically designed power inflator system, comprises LP/corrugated hoses, inflate/dump buttons and mouthpiece
 Kidney pull dump
 10 stainless steel D-rings
 2 rear trim weight pockets (non-dump)
 Trim weight pocket capacity: 2kg (4.4lbs) lead block, 2.3kg (5.1lbs) lead shot
 Adjustable buckled webbing waist strap
 Adjustable webbing crotch, chest and shoulder straps
 Neoprene-padded shoulder straps
 Comfortable padded back rest
 Subtle reflective piping on wing back panel
 Removable bungee with split ring attachment point
 Removable zipped access bag
 Supplied with Northern Diver carry bag
 Rigging kit
 2 Reinforced webbing cylinder cam bands
 4 snap bolts and 2 bungee cords
 Bungee cords have snap bolts at one end and quick links at the other

SIZE: ONE (adjustable)

Dry weight: 4.2kg (9.6lbs)

Lift: 18.3kg (40.6lbs)

£184.00

HYDRA REGULATORS

CE Approved

EN250-A Certified

Suitable for cold water, extreme diving, warmer waters and less intensive dives

HYDRA REGULATOR SET

CODE: REG-HYDRA-DIN or REG-ND-M50-ACLAMP +
REG-HYDRA-OCTO + NDB14-2007

Hydra second stage

Synthetic resin, highly resistant to impacts & abrasion
Is not attacked by UV rays and chemical agents
Silicone diaphragm, exhaust valve and poppet seat
Chrome-plated brass & stainless steel inner components
Mouthpiece is hypo-allergenic silicone
Connects to a low pressure (LP) port on the first stage through a flexible LP hose with high flow performance
Venturi lever (+/- lever) adjusts nozzle direction to release air that is breathed in by the diver
Venturi lever can be adjusted between two settings
Minus for normal dive conditions
Plus for more extreme conditions &/or deeper dives

Emergency auxiliary second stage (bail out)

Same tech spec and materials as standard second stage
Colour of the shield and hose are yellow not black
Especially designed for easy identification in an emergency
Bail out hose is 1m long for quick access

First stage (DIN or A-clamp adaptors available)

Environmentally sealed
Build: brass (single piece) and electro-galvanic process
Chrome/nickel coated brass internal component parts
Stainless steel springs & nitrile rubber seals
Separation diaphragm: rubber resistant to low temps
Internal mechanism: twin protection (saltwater/moisture)
Internal black diaphragm: high performance and reliability
Fully separates "heart" of reg from external environment
Outer silicone diaphragm allows exact transmission of external pressure to internal mechanism, without the use of complicated equipment or special fluids
System: based on a balanced diaphragm regulator
Gives an intermediate pressure that is always constant, regardless of tank pressure or depth
Air inlet protected by conical sintered filter, blocks impurities
Fitted with 4 low pressure ports (3/8" x 24 UNF thread) and 2 high pressure ports (7/16" x 20 UNF thread)

£413.00

18L regulator case can be purchased separate

CODE: NDB14-2007

£30.00

REGULATOR SERVICING

Our in house experiencing **A.S.S.E.T. trained** technicians are ready and waiting to service your Northern Diver regulators.

What's included?

- A visual check
 - looking for tears/damage to regulators and/or hoses
- A pre-check
 - submersion test to detect any leaks
- A strip down
 - to inspect all parts, replace any worn/damaged part before a cycle in the Ultrasonic cleaning machine
- A complete rebuild and bench test
- A final submersion test

Turn around is approx. 7 working days, please contact us to check our current turaround time

UNIVERSAL HELMET MOUNT

CODE: ND0001146

Our universal mount fits many torches and dive lights and boasts a variable turn and tilt function. It's quick and simple to use, allowing you to attach a torch to your helmet so you can see and light the way from your own point of view. Designed in the UK, this helmet mount is lightweight and extremely easy to use and attach.

Material: ABS plastic and marine-grade 316 stainless steel
Fit to most helmets and easy to assemble
Compatible with multiple torches (photos show the Tec and Micro)
Waterproof and perfect for underwater use
Anti-slip design, stable mount, adjustable angle
Easy access to your mounted torch
Size: 90 x 60 x 12mm (3.5"x 2.4"x 0.5")
Product weight: 53g (1.86oz)

£15.00

FLEXI-LIGHTS . . .

. . . THE MODERN ALTERNATIVE TO CHEMICAL LIGHT STICKS

@iksac_scuba

Hampshire SAR

@rampantlogistics

CODE: FLEXI-LGT-V3-COLOUR or FLEXI-LGT-V3-V-COLOUR

We are constantly using feedback to enhance our products. We have enhanced the prominence of the on/off switch to prevent Flexi-Light from being switched off unintentionally and to allow the user to easily activate the light when wearing a thicker glove

ORIGINALLY DEVELOPED FOR MILITARY USE.

The Flexi-Light was originally designed for military and special forces use to support troops on the ground and helicopters overhead as a more cost effective and environmentally friendly alternative to chemical light sticks. Unlike chemical light sticks, the user decides when to turn the Flexi-Light stick on or off. Replacing chemical light sticks with our reusable Flexi-Light can help make a significant cost savings.

V3 STANDARD COLOURS + LIGHT STICK MODES.

Press 1 > Mode 1: Low power, burn time 40 hours
 Press 2 > Mode 2: High power, burn time 22 hours
 Press 3 > Mode 3: Flashing, burn time 42 hours
 With the fourth press, the Flexi-Light is switched off

MULTI-COLOUR DESIGN.

The multi-coloured Flexi Light has flashing mode only and is built to the same standard as all other versions. It offers 4 colours in 1 light stick.

Press 1 > On / Flash / Red
 Press 2 > Flash / Green
 Press 3 > Flash / Blue
 Press 4 > Flash / Yellow
 Press 5 > Off

IR DESIGN.

We introduced the Infrared (IR) option for Military Ops (wavelength of the IR Flexi-Light is 625-635 NM), now available with an on/off switch to avoid confusion.

COLOUR: green, yellow, blue, red and white, multi-coloured (purple marker), infrared black (marker)

SIZE: 110*25*12mm (4.3*0.9*0.5")

STANDARD £7.10 | STANDARD WITH VELCRO £7.80

MULTI-COL/IR £7.60 | MULTI-COL/IR WITH VELCRO £8.30

IR W/SWITCH £9.50 | IR W/SWITCH + VELCRO £10.00

Flexible silicone body

Improved easy press-to-operate button

IR version now with on/off switch

WE'VE KEPT THE FEATURES THAT WORK.

- Twist or bend the Flexi-Light when in storage or in use without causing any damage
- High intensity 8 lumens
- Burn up to 3x brighter than traditional glow sticks
- Visible distance: up to 3000m (9842')
- Depth tested up to 100m (328')
- Non-sparking and non-heat producing
- RoHS compliant double sealed construction
- Non-replaceable battery
- 100% waterproof
- Improved on/off push-button operation
- Can be repeatedly used with on/off switch

A RANGE OF USES.

Our Flexi-light sticks have become popular in a range of different markets as a cost effective, reusable product that can be useful in a range of activities.

- Military: covert ops
- Water rescue teams
- Mountain rescue teams
- Search and rescue teams
- Underwater
- Scuba diving
- Outdoors (camping, dog walking, trekking, hiking and walking)

OPTIONAL FIXING OPTIONS.

We have designed multiple fixing options depending on what you are using the Flexi-Light for.

Hook Velcro
(for application to loop velcro surfaces)

FROM £7.80

Removable pocket
(designed to clip to your drysuit)

£5.80

Removable pocket
- attached to kit with Velcro closing strap

£5.80

Nylon clip
- a simple way to attach a Flexi-Light to your kit

COLOUR: BLK

£77.00

KNIVES / SHARP TIP SERIES

HRC50 MILITARY COMBAT KNIFE

CODE: KNIFE-HRC50

The blade is made from high quality 50HRC beta titanium alloy, so it's an ideal dive knife for recreational scuba divers and professionals. With a full shank drop pointed tip blade, the knife is great for cutting, digging and prying. It also has a line cutter further down the blade enabling you to keep the line in place while the blade administers a swifter, cleaner cut - it's specially designed to cut through lines, webbing and rope. The top edge is serrated so the knife can easily be used for sawing.

125mm (4.9 inch) titanium blade
Overall length: 260mm (10.25 inch)
Self draining, squeeze & release locking nylon sheath
100% no rust, non magnetic, full shank drop point blade
Serrated top edge, line cutter
Sure hand curved grip
Neoprene leg harness included

COLOUR: BLK

£160.00

BACK PACK ASSEMBLY

CODE: BACKPACK HARNESS

Durable single tank backpack
50mm (2") webbing/harness/strap
Quick release stainless steel buckles
Disperses weight across hips/back
Standard slots/attachment points

£53.00

CYLINDERS/DIVE TANK ACCESSORIES

TWIN BANDS

CODE: ND-TWIN BANDS

50mm (2") wide webbing cam belts
With plastic protective spacer blocks
316 marine stainless steel D-rings
Adjustable for use on all cylinder/
tank sizes
Compatible with all modern BCDs
Stainless steel style also available

£53.00

TWIN HALO

CODE: CYLINDER-HALO

Protection for cylinder valves and
regulator first stages
Fully adjustable for any size twinset
Adjustable clamp system
Pivots and adapts to fit any size
from 7L to 18L cylinders/tanks
Enquire for single halos

£28.00

CYLINDER/TANK HANDLE

CODE: TANK HANDLE

Universal handle for single tanks
Very secure - 2 bolt fixing
Safe and easy carrying of cylinders
Fits the neck of 10L, 12L, 15L
Tough, injection-moulded plastic

£8.80

CYLINDER/TANK MESH

CODE: TANK MESH SIZE COLOUR

A lightweight method to protect
tanks from the wear and tear
Heavy duty protective mesh sleeve
SIZE: 7" (17.8cm) and 8" (20.3cm),
fits 10L, 12L, 15L
COLOUR: BLK, YELL

£8.80

AIR RIFLE FILLING SYSTEM

CODE: 7 LITRE 300 BAR FABR
+ GUN CHARGING VALVE INC HOSE

7L 300bar high quality cylinder
fitted with the gun charging valve
dedicated to safe filling of pneumatic
pre-charged air guns. The design
features an integrated gauge to
show the pressure you have filled
your air gun to.

Cylinder and charging valve must
be bought as a complete set from
Northern Diver. For safety reasons
charging valve cannot be sold
separate. (Handle not include).

£215.00

CYLINDER/TANK RUBBER BOOTS

CODE: CYLINDER BOOT SIZE

Stop your bottle falling over - this rubber boot simply
pushes on to the the bottom of your cylinder and gives a
flat base to help prevent the bottle from falling over.

Protect the base of your cylinders. The flat bottoms
allow the cylinders to stand upright and are vented with
ribs and drain holes to allow water to drain away to help
prevent corrosion.

Designed fit perfectly over the bottom of your steel
diving cylinder, providing superb impact protection and
improved stability, when back on dry land.

SIZE: 4" (10.2cm), 6" (15.3cm), 7" (17.8cm), 8" (20.3cm)

4" £6.60 | 6" £7.10
7" £7.40 | 8" £7.70

14L PRESSURE POT

CODE: MOD-ITEM 267 PRESSURE POT

Internal dimensions: 250*285mm (9.8*11.2")
Maximum inlet pressure: 9 bar
Pressure relief valves: 10.35 bar
Maximum depth reading: 90m (295')
Weight: 46.5kg (102.5lbs)
Inlet connection: Hansen quick coupling
6-point locking mechanism, quick release action
Removable plastic liner
Polycarbonate window
Can also be used to check depth gauge accuracy
Chrome plated mild steel
Maximum depth reading of 90m (295')
Straight forward display ensure simple & swift operation

Enquire

POMA OXYGEN MONITOR

CODE: MOD-ITEM-192(LOT2)-POMA

Designed to measure oxygen levels in the range 0.1 - 100%, for tank oxygen level verification. The POMA is fitted with a large digital display & operates from an internal temperature compensated electrochemical oxygen sensor.

The unit is powered by a 9V battery, which will last for approximately 1 year before replacement is necessary. The oxygen monitor will automatically switch off after 10 minutes to ensure battery life is not compromised if the instrument is accidentally left turned on. Conforms to BS EN 50270 & BS EN 61000-6-3.

DUAL EARPHONES + MICROPHONE

CODE: OTS-EM-OTS2

Allows the user to connect either hard-wire or through-water comms to a helmet or full face mask. Configured with Hot Mic® noise cancelling, salt-water resistant, pressure-resistant studio quality microphone.

£786.00

BUDDY PHONE

CODE: OTS-BUD-D2

Through-water transceivers in a compact, affordable platform. Includes voice menus via push-to-talk button to control channel, volume, squelch & a patented Hot Mic® or Super Mic®.

£1063.00

4-CHANNEL DIVER UNIT

CODE: OTS-SSB-2010

5 watt diver unit designed with search & rescue teams in mind. Includes: voice-operated transmitter, push-to-talk control, squelch, earphone volume, voice menu, removable transducer, & a heavy-duty design.

£1662.00

MK-7 BUDDYLINE 2-DIVER-STATION

CODE: OTS-MK-7

A compact, self-contained air intercom that gives clear comms in the 4-wire mode (round robin). Designed for search & rescue teams to have an underwater comms device that required minimal set-up time.

£1877.00

SURFACE CONVERSION KIT

CODE: OTS-CDK-6

To convert a PowerCom 3000D/5000D, MilCom 6000D, SSB-2010, SSB-2001B-2, or SSB-1001B into a portable surface station so you can talk to other divers and/or surface stations within range and on the same channel.

£912.00

PORTABLE DIVER RECALL SYSTEM

CODE: OTS-PDR-100

Designed with a rugged housing and durable underwater speaker, this Portable Diver Recall system is made for a long working life under harsh environments. Includes: PDR-100 Unit, Underwater Speaker, Battery & Charger.

£2498.00

SP-100D-2, 2-CHANNEL STATION

CODE: OTS-SP-100D-2

Uses state-of-the-art digital signal processing (DSP) circuitry to ensure great performance and clarity. Operates with all single side-band acoustic underwater devices within range/on the same frequency.

£1872.00

STX-101, 4-CHANNEL STATION

CODE: OTS-SSX-101

This surface transceiver is a 5-watt, multi-channel, single side-band underwater telephone designed with search & rescue teams in mind. The STX-101 offers four channels that match the SSB-2010.

£3064.00

COMBOX 1-DIVER STATION

CODE: OTS-COMBOX

A compact, self-contained one diver air intercom, the ComBox allows clear 2-wire communications using a powerful 20-watt amplifier. With a rugged PTT control & "silver bullet" front speaker.

£1126.00

MK-2 DCI 2-DIVER-STATION

CODE: OTS-MK2-DCI

The versatile OTS MK2-DCI provides one or two divers with clear communications in either 2-wire or 4-wire mode. In 4-wire mode, up to 6 divers can be 'stacked' and communicating with each other.

£2422.00

MK-III 3 DIVER AIR INTERCOM

CODE: OTS-MKIII

Communicate with 3 divers simultaneously in loud, hard working conditions due to its powerful speaker. The panel displays a 3 diver colour coded section to allow a surface tender to identify and adjust volumes on the fly.

£3125.00

Floating ComRope

CODE: OTS-COMROPE

Floating Communications Cables were made with Public Safety and Aquarium divers in mind. This buoyant cable helps minimise entanglements hazards by keeping the bulk of the cable on the surface.

£4.00 (PER FOOT)

ComRope

CODE: OTS-COMROPE

CR-4 is 100% Polyester, 7/16" static kernmantle rope designed with four specially configured wires down the centre. We offer the CR-4 by the foot but also sell it complete with the connectors on each end.

£4.00 (PER FOOT)

TCA-35 CABLE

CODE: OTS-TCA-35

Transducer assembly cable for SP100D2 & STX-101

£461.00

TRANSDUCER CABLE

CODE: OTS-TC-55M

Transducer Cable, for STX-101M Surface Station (55' – does not include transducer).

£327.00

OPEN RANGE

The MCH 22, 30 & 36 Coltri Open Compressors are some of Northern Diver's largest breathing air compressors. These units will be more than capable of satisfying even the largest of dive shops or diving centres. The OPEN model was conceived to meet the needs of very intensive uses, large refilling capacities, in warm, poorly ventilated environments or in tropical countries.

4 front filling connections for high pressure hoses (from 232 to 420 bar), a control panel and an electrical display. Equipped with a three-phase electric motor and powerful pumping units. Optionals include: electronic touch screen panel, Presec for filter saturation control and remote filling panel

MCH 22

CODE: COLTRI-MCH36-OPEN

£22,968.00

MCH 30

CODE: COLTRI-MCH30-OPEN

£21,700.00

MARK 3 RANGE

A series of uncompromised breathable air compressors for intensive use in warm, poorly ventilated or tropical environments. Designed with an improved cooling system and a filtering system with two hyperfilters, this series is powered by a three-phase electric motor, equipped with four different pumping units (MCH 13, MCH 16, MCH 21 and MCH 23), all in TPS (Tropical Plus Superdry) version and available with operation monitoring system and electrical display to automatically shutdown the compressor.

£11,326.00

ERGO ET RANGE

Stands out for its robustness, portability and great efficiency. Equipped with three different pumping units and powered by three-phase electric motors. Each ERGO compressor has a monitoring system panel that includes an interstage pressure gauge, autostop with adjustable pressure switch, automatic condensate drain and a phase control for rotation direction. The models in this series have two connections for high pressure hoses (from 232 to 330 bar) and a Maxifilter system. The remote filling panel is available as an optional extra.

SMART RANGE

These compressors give the performance required of a dive shop or dive club from a unit able to operate off a single phase supply. All models are equipped with two connections for high pressure hoses (from 232 to 330 bar), a single-phase or three-phase electric motor, robust pumping units (MCH 8, MCH 13 or MCH 16 depending on the specific model) and a compact frame with handles, suitable for transport. External refilling panels and an electrical display are available as optional extras, with various automatic features including automatic condensate drainage and an autostop pressure gauge.

MCH6 SILENT RANGE

The Coltri MCH 6 Silent is designed for filling a single cylinder. It is neither designed nor intended for filling cascade storage systems of any kind.

With the same performance of every model equipped with the MCH 6 pumping unit, the Coltri breathable air compressors of the SILENT series are extremely silent and the large space offered by the frame allows the use of a filter system with Maxifilter. Available with single-phase or three-phase electric drive and integrated control panel with hour meter, they have as standard the automatic condensate drain and the autostop. The equipment includes a filling connection for flexible tube with operating pressure from 232 to 300 bar.

MCH6 ET

CODE: COLTRI-MCH6ET-SILENT

£5029.00 EX VAT

MCH6 EM

CODE: COLTRI-MCH6EM-SILENT

£5408.00

MCH6 RANGE

The MCH 6 Compressor range is one of Northern Diver's most compact and lightweight breathing air compressors, being easy to handle.

The most used portable compressors in the world are part of the Coltri BASIC series. Compact and lightweight, the models meet the needs of high pressure breathable air for the diving world, recreational activities, fire-fighting services and small paintball facilities. All equipped with the MCH 6 popular pumping unit, they are available with petrol or electric engines, both three-phase and single-phase. The equipment includes a filling connection with flexible tube with operating pressures from 232 to 300 bar.

ADDITIONAL OPTIONS FOR THE MCH6

These are available upon request, please contact us

- Pressure maintaining valve (+DRV filling valve)
- Automatic condensate drain with timer (EM & ET only)
- Autostop (EM & ET only)
- Digital hour meter (SH only)
- Remote intake tube kit
- Filling hoses (lengths: 1.5 to 10m / 4.9 to 32.8ft)
- Stainless steel frame

MODELS AVAILABLE:

RECOVERY VEST

RECOVERY VEST (RVEST)

CODE: R-VEST B/P or R-VEST B/P XL

Our R-VEST combines a recovery harness, cylinder attachment, quick-release weight belt and work vest with tool attachment points into one body-hugging unit. Can be used to lift an unconscious diver from the water.

Tested and compliant with EN 15333-1:2008
Tested in accordance with ADCI guidelines
Built from ultra-durable materials, ensures a long product life without compromising on comfort
Sea-water resistant
Each of the 9 D-rings has been independently tested to a breaking strength of 1000kg
Each lifting point (and the adjustment buckles) can withstand a tensile force of 9,000N
Has lifting points on both the back and front
Quick release sat bag for tools
Quick release weight pockets
Loop for carrying hammer
Backpack with cam band for attaching cylinders
Adjustable waist and crotch straps
316 Stainless Steel Marine Grade fittings

SIZE: STD (91cm - 116cm | 36" - 46"),
XL (121cm - 162cm | 48" - 64")

STD £440.00 | XL £496.00

RECOVERY VEST ACCESSORIES

COMMERCIAL TOOL BAG

CODE: SAT BAG - ND

Fabric build: PVC Tarpaulin
Strong & sturdy zips
Drainage eyelets
2x compartments, the main for large tools the smaller front compartment for all those smaller awkward tools
D-rings for attaching items that may float away
Large stainless steel D-rings for securing carabiners on the outer side of tool bag

SIZE: ONE, 29*19*6cm (11.4*7.5*2.4")

£21.00

R-VEST WEIGHT POCKET (SPARES)

CODE: R-VEST POCKETS

Fabric build: 50mm (2") wide webbing
Fitted with a set of 3 weight pouches that are connected to each other by their material backing and attached onto a flexible plastic rod
The plastic rod enables quick-release if a diver is in trouble
Pouches are designed to carry plastic coated lead blocks to aid buoyancy control as you would with a weight belt or weight and trim harness

SIZE: ONE

RECOVERY HARNESS

BELL SAFETY HARNESS

CODE: COMMERCIAL DIVING BELL HARNESS
or COMMERCIAL BELL HARNESS-SMALL

Tested and compliant with EN 15333-1:2008
Can be used to lift an unconscious diver from the water
Has lifting points on both the back and front
Each lifting point (and the adjustment buckles) can withstand a tensile force of 1000kg
Stainless steel slide lock adjustment buckles (qty 6)
Certified diver recover lifting points - special triangular shaped stainless steel d-rings (qty 5)
UK and USA umbilical D-rings
Approved stainless steel equipment d-rings (qty 4)
Highly visible 50mm (2") heavy duty webbing build
Easily adjustable shoulders, chest, waistband and leg straps are all secured with hook and loop Velcro so there is no risk of snag hazards
Manufactured and tested to IMCA's guidelines
Reinforced red stitched areas provides additional strength and is easily identifiable for inspections

SIZE: Small, chest 91-116cm(36-46")
or Standard, chest 121-162cm (48-64")

£220.00

BELL SAFETY HARNESS W/BACKPACK

CODE: COMMERCIAL HARNESS B/P

Tested and compliant with EN 15333-1:2008
Can withstand a tensile force of 1000kg
Heavy duty harness designed for use by commercial divers operating from a diving bell
Can lift an unconscious diver from the water
Built with integrated heavy-duty back plate (can be fitted with twin cylinders, if twin bands are purchased)
Very comfortable worn with or without cylinders
Stainless steel slide lock adjustment buckles (qty 6)
Certified diver recover lifting points - special triangular shaped stainless steel d-rings (qty 5)
UK and USA umbilical D-rings
Approved stainless steel equipment d-rings (qty 4)
High vis 50mm wide heavy duty, durable webbing build
Easy adjust shoulders, chest, waistband and leg straps
Straps are secured with Velcro so no risk of snagging
Manufactured and tested to IMCA's guidelines
Reinforced red stitched areas provide additional strength and is easily identifiable for inspections

275N AUTOMATIC LIFE JACKET

CODE: LIFE-JACKET-275 or LIFE-JACKET-275-BLUE

Supplied with a 60g (2.1oz) CO2 inflation cylinder, the Northern Diver Arctic Survivor 275N life jacket is a high performance device for offshore use and severe environmental conditions, when maximum protection is required or where heavy waterproof clothing is being worn.

This life jacket helps prevent drowning of those who cannot help themselves, for example if they are unconscious.

This life jacket has been designed in consultation with rescue training organisations responsible for training the emergency services. It can be customised with logos.

- 60g (2.1oz) CO2 auto inflation cartridge
- Whistle and oral inflation tube
- Flexi-Light stick pocket fitted to the left side of jacket, please note Flexi-light is not included
- Adjustable crotch straps

**This item cannot be guaranteed to self right in all instances when unconscious user wearing heavy waterproofs or clothing. During tests it has been proved to self right in the vast majority of cases.*

SIZE: ONE (Adjustable)

COLOUR: RED, BLUE

£121.00

275N TWIN CHAMBER SOLAS LIFE JACKET

RESCUE LIFE JACKETS & ACCESSORIES

Rearming kits are an essential piece of equipment when using life jackets. Unless you are knowledgeable about life jackets, we recommend that you send yours to us to be re-armed and re-packed. We service a huge amount of life jackets each year and we see a large amount of incorrectly packed or incorrectly 'loaded' life jackets which render them useless.

RESCUE REACH POLES

LIGHTWEIGHT 4 LENGTHS

LIGHTWEIGHT CARBON FIBRE REACH POLES

CODE: REACH POLE-LENGTH

A rapid, agile method to reach a conscious in-water casualty. The poles can equally be used to retrieve items from the water. Pole sections cannot be fully separated, each section has a clamp that unlocks a section and enables easy adjustment for fast extraction and retraction. On the tip of the pole is an aluminium bayonet fitting for use with the poles quick-release accessories.

Pole material: carbon fibre, clamps material: reinforced resin, attachments: 316 stainless steel and a rubber base.

When you buy a 6m, 9m or 15m reach pole you are supplied with: the pole, grapple hook, shepherds crook, pole extension, inflatable bouy and a storage bag. When you buy a 4.5m reach pole you are supplied with: the pole and shepherds crook.

Extended: 4.5m (14'8), retracted: 1.78m (5'8), sections x3, weight 1.1kg (2.4lb)

Extended: 6m (19'7), retracted: 1.80m (5'9), sections x4, weight 2.2kg (4.9lb)

Extended: 9m (29'5), retracted: 1.86m (6'1), sections x6, weight 2.8kg (6.2lb)

Extended: 15m (49'2), retracted: 1.88m (6'2), sections x10, weight 4.1kg (9lb)

TRAINING MANIKINS

The water rescue manikins of choice for British and US Navies, all UK Fire Services and NATO forces worldwide - these dummies perfectly simulate unconscious casualties in water.

BODY RECOVERY TRAINING MANIKIN:

Ideal for Police dive teams training to recover bodies from inland waterways and from under ice.

CONSCIOUS CASUALTY TRAINING MANIKIN:

Suitable for jet ski rescue training and other general water rescue scenarios.

MAN OVERBOARD TRAINING MANIKIN:

Ideal for search and rescue exercises in the open ocean, streams, lakes or other inland waterways.

SEARCH & RESCUE TRAINING MANIKIN:

Extensively used by Police and police dive teams, Royal Navy, Offshore operators, Coastguards & Lifeguards and Inland Water Rescue Teams.

DMAC MEDICAL KIT

CODE: FIRST-AID-KIT

The Diving Medical Advisory Committee (DMAC) specifies medical kits that they recommend to be held on the surface and in saturation chambers at dive sites. The kits include equipment for use in an immediate first aid situation, equipment and drugs that may be used by personnel with advanced medical training such as a dive medic. Includes items that would be commonly used in an emergency situation during diving operations in a remote location the kits are an essential component at a dive site. Visit our website for a full list of contents

INFLATABLE EQUIPMENT RANGE

Shoreham By Sea, Demo Day

Our inflatable brand was established by the founder of Northern Diver over 30 years ago under the name Osprey. Development began at Northern Diver's Appley Bridge factory when 2500+ inflatable boats were produced in the UK and sold worldwide.

Good design and quality manufacturing have always been a hallmark of the Northern Diver brand and soon became equally associated with the inflatable equipment we produced due to our expertise in the specialist rescue, commercial and military sectors.

It's from this heritage that we continue to offer our ever growing range of inflatable equipment from leisure and performance to commercial and lightweight series.

We have an inflatable to suit your every possible need and if you can't find it we will look to create it for you.

WHY CHOOSE AN SRE INFLATABLE?

- Safe/effective in rescue operations
- Rapid-deployment for rescuers
- Easy to recover a man overboard
- Highly manoeuvrable
- Efficient in shallow waters
- Fast inflation system
- Floor options, removable or light (boats)
- Large buoyancy tubes
- Safe and stable
- Heavy duty and lightweight
- Easy to fold and to carry
- Transportable by a two men crew
- Easy maintenance
- Fully equipped to deploy in the field

Obtain incomparable style with SRE inflatables.

Easy to stow, our compact inflatable equipment can more than hold their own against competitor models. Their ability to plane at full capacity makes these crafts equally comfortable for crew and passengers. They're highly manoeuvrable and efficient even in shallow waters.

Competitively priced. You're sure to find a great inflatable option for you from our range. They're heavy duty but surprisingly lightweight as well as being easy to maintain and inflate. Their fast inflation is why they're easy to rapidly deploy in rescue operations.

Built with safety in mind. Our inflatable equipment offers outstanding life spans for their owners. The large diameter tubes provide buoyancy and improved stability, and our range is CE approved. Every inflatable is designed and built to the highest standards of efficiency and safety, and your chosen model will be reassuringly safe, seaworthy, buoyant and stable.

Our inflatable equipment is proven to be safe and effective on the water. Professionals expect and demand top performance, quality and reliability, that's why they chose specialist rescue equipment (SRE) by Northern Diver.

Made to last with ISO 9001 quality. From factory to you, we control and monitor quality to ensure you get quality, in build and design. We use the best available technology and materials in inflatable's, using either Double Walled Fabric (DWF) Hypalon or PVC, to ensure a quality end product.

This provides you with a craft that is virtually unaffected by weather, even the excesses of heat, cold or humidity. The make up of the design also protects against, fuel, oil, strong sunlight and everyday abrasion. The use of the DWF construction method means we eradicate pin-holes, cracks and surface air-bubbles on all inflatable floors. Also, Double Walled Fabric (DWF) means our inflatable equipment is more air tight and can withstand a higher maximum air pressure to allow us to use it on any kind of model. Our passion for quality further extends to our top quality components and additional parts.

Combine style, performance, and functionality

Made from PVC fabric, the Leisure Series boats are lightweight and give guaranteed flexibility and reliability in all-weather conditions.

3.2M (10'4) NAVAJO INFLATABLE WITH ALUMINIUM FLOOR AND INFLATABLE KEEL

With a maximum capacity of 4 on 2 benches, the Navajo is a small but mighty option for a range of applications.

Spec Details	3.2m (10'4) Navajo
Max. loading	4 persons, 650kg (1433lb)
Outer dims	L: 3.2m (10'4), W: 1.52m (5'0)
Internal width	70cm (27.6")
Tube dia.	41cm (16.1")
Aluminium floor	4 folding panels, 15kg (33lb)
Weight (inflatable only)	47kg (103lb)
Chambers	3 + inflatable keel
Max. tube pressure	.35bar/ 5 psi
Max. pressure inflatable floor	.7bar/ 10psi
Handles, lines, benches	2 + 2 + 2
Reccomended outboard	15HP Max. or Electric 11Kw
Colours	Grey with blue trim
Reinforced rubbing strakes	Boat tubes + underside keel

CODE: BOAT-INFLATABLE 3M

£550.00

3.6M (11'8) APACHE INFLATABLE WITH ALUMINIUM FLOOR AND INFLATABLE KEEL

Our 3.6m (11'8) inflatable, the Apache gives you more space for an extra person without compromising on stability or speed.

Spec Details	3.6m (11'8) Apache
Max. loading	5 persons, 800kg (1763lb)
Outer dims	L: 3.6 (11'8), W: 1.7m (5'6)
Internal width	80cm (31.5")
Tube dia.	45cm (17.7")
Aluminium floor	4 folding panels, 15kg (33lb)
Weight (inflatable only)	59kg (130lb)
Chambers	3 + inflatable keel
Max. tube pressure	.35bar/ 5 psi
Max. pressure inflatable floor	.7bar/ 10psi
Handles, lines, benches	2 + 2 + 2
Reccomended outboard	20HP Max. or Electric 15Kw
Colours	Grey with blue trim
Reinforced rubbing strakes	Boat tubes + underside keel

CODE: BOAT-INFLATABLE 3.6M

£766.00

Accessories included: both the Navajo and the Apache boats come with paddles, paddle holders, oar locks, maintenance kit, double action pump and storage bag.

ALLOY HULL PERFORMANCE BOAT SERIES

Take your leisure time at a performance pace

Our alloy hull, lightweight RIBs easy to transport and launch. Designed with a classic inflatable look and functionality to provide a lot of quality in a compact package.

INFLATABLE HULL BOAT SERIES

Lightweight and easy to handle and launch

The lightweight inflatable hull series with DWF is easily transportable by a two-man crew. The floor panels, when inflated, come together to give the boat a keel. The Lightweight series are easy to carry, stow and fold. All of the boats in this series come complete with keel rubbing strake and have a lifting handle that's also a towing eye combined in one. The DWF system of drop threads between two flat rubber composites gives a high pressure, fully flat surface, as strong as a traditional aluminium floor without the weight.

Spec Details	3.2m Boat (DS320)	4m Boat (DS400)
Max. loading	4 persons, 900kg (1984lb)	8 persons, 1500kg (3306lbs)

INFLATABLE TUBES

INFLATABLE RESCUE TUBE/HOSE

Outreach Rescue

Available in 5m (16'4), 7m (22'9) and 10m (32'8) lengths. A first response solution for water rescue and invaluable in situations where the casualty is conscious and able to assist.

The system can be deployed in numerous ways during a rescue operation, depending on the prevailing conditions. The tube is easy to carry into remote locations i.e. mountain tarns and gorges.

Lightweight and highly visible
Stainless steel 316 marine grade D-rings located every 2m (6'6) along the tube
Inflates by hand pump or from a compressed air cylinder

Inflation valve fittings, HP2 inflation hand pump, storage bag and repair kit included.

0.7m (2'3") long coiled and expands to 3.0m (9'8")
Sits comfortably around ankle/calf with 316 stainless steel swivels and strong urethane cord. Attaches to any D-Ring on your SUP.

£9.50

TELESCOPIC FLOATING SUP PADDLE

CODE: SUP-PADDLE

A lightweight fibreglass paddle with a strong, stiff shaft and a powerful/durable ABS blade is perfect for your paddleboard adventures. Max length – 210cm (82.6"). Min length – 160 cm (62.9") Weight: 920g (2.02lbs).

£25.00

INFLATION OPTIONS

Every inflatable boat comes with a hand or foot pump as standard. However, we can provide options to help you inflate quicker for when you need to get on the water fast.

SATURN REG INFLATION KIT

CODE: REG-ND-M4-DIN

A first stage reg for use with a cylinder
Assists with speedier chamber inflation
Use DIN 300bar or A-Clamp 232bar tanks
Saturn reg inflation kit is set at 2.5 bar outlet pressure
Fitted with a 2m (78") inflation hose

£198.00

HP2 INFLATION PUMP

CODE: BOAT-PUMP-HP2

EN 16051
Built-in shockproof pressure gauge
Seal/anti-sand filter
Switch for double/single action
Capacity: 1.8 + 1.8L
Dimensions: 12*25*55cm (4.7*9.8*21.7")

£35.00

HP4 INFLATION PUMP

CODE: BOAT-PUMP-HP4

Halkey roberts nozzle
Built-in shockproof pressure gauge
Seal/anti-sand filter
2 cylinders with triple action
Capacity: 3.5 + 3.5 L
Dimensions: 19*31*21cm (7.5*12.2*8.3")

£86.00

12V SPEEDY AIR PUMP WITH CROC CLIPS

CODE: BOAT-PUMP DC

High speed fan and high-pressure piston pump
Adjustable from 2.2 PSI up to a maximum of 12 PSI
Auto stop when your chosen pressure is reached
Reliable design to reduce wear
Gator clips for quick connection to the car battery
All necessary adaptors are included

£171.00

MAINS POWER SPEEDY AIR PUMP

CODE: BOAT-PUMP AC

High-pressure inflator pump
1200W at maximum power
Auto stop feature
Easily transportable at just 1.9kg (4.18lb)
Maximum output flow of 2100L/min
Maximum air pressure of 31KPa

£141.00

NRS-55L NERAUS SERIES ELECTRIC OUTBOARD

CODE: OUTBOARD-P-ELEC

Low noise, reliable and more power for your money
 Thrust: 25kg (55lb)
 Input power: 12V, 52A 624W
 Shaft length: 0.915m (36")
 Complete with a transom bracket, telescopic handle, 5 forward and 3 reverse speeds
 Designed for salt and/ or freshwater use
 Anti-corrosion and anti-dust properties
 Easily lift the motor and adjust it's height to avoid objects in shallow water. The nylon mount bracket enables a 90 degree lever-lock system
 Flexible 2-blade machete propeller
 10-level LED power indicator
 AWM standard US cable and UL certificate
 Please note battery is not included

£237.00

SAIL 95D31R BATTERY

CODE: OUTBOARD-ELEC-BATTERY

Voltage 12V, Capacity 80ah, 600 A
 LxWxH: 310x182x256mm (12.2"x 7.2"x 10")
 Weight: 20.4kg (45lb)
 Maintains power even in low temperature conditions

£199.00

SMART POWER BATTERY BOX

CODE: OUTBOARD-ELEC-BATTERY BOX

Suitable for batteries up to 100ah capacity
 Internal LxWxH: 355x190x260mm (13.9"x 7.5"x 10.2")
 Carry weight: 35kg (77.2lb)
 12volt power station
 5v USB socket, great for recharging a phone or tablet
 60amp breaker on 12volt connections

£86.00

BUNK-STYLE ROAD TRAILERS FOR INFLATABLES

We'll work with the manufacturers to ensure that we get you the most suitable trailer for your SRE inflatable at the best price possible.

Bunk trailers are adjustable, so your boat gets maximum protection. The trailers are fitted with sealed for life bearings. Fully welded and hot dip galvanised, the trailers we supply conform to current road use regulations.

INFLATABLE ACCESSORIES

SUZUKI 4-STROKE OUTBOARD MOTORS

Reliable. Compact. High Performance.

Suzuki offer powerful, reliable and fuel-efficient boat engines. Every engine across their ranges is specifically designed for marine use. Their user-friendly motors are supported by their 50 years of industry leading innovation.

High performance, lightweight, compact and low on fuel consumption: you really can have it all in one!

MTM SPECIALISTS

We've been creating tailored suits for over 40 years, so, if a stock suit is not for you, why not build your own?

Are you struggling to fit into a stock sized drysuit? Don't worry we can help. Our made to measure service ensures you purchase a drysuit that fits you perfectly. Northern Diver's state of the art computerised cutting system ensures that all suits are precision made to your exact measurements.

Each suit is designed, planned and graded digitally, then transferred to the cutting bed, which gives a clean and accurate cut, ensuring maximum seam integrity. Suits can be customised with pockets, fly zips, branding and much more, we are happy to help with any requirement you have.

Contact our experienced team to discuss your made to measure options on:
 +44 (0) 1257 25 44 44 or info@ndiver.com

ADDITIONAL £221.00

DIVE IN!

The first multi-purpose indoor diving facility in the North West.

A 22.5m (73'8) test facility that is perfect for equipment trials and training Military, Commercial and Scuba divers.

Contact +44 (0) 1257 25 44 44 to discuss.

SUIT REPAIR & ALTERATIONS

Photo credit: Louise, one of our Repairs Team Leaders in action. Using her 27 years' experience to cut and custom fit repairs & alterations.

Stock suits. Custom tailoring.

We can help you tailor suits so they better support you in the field. If you need to add different elements to standard suits we provide, just ask. We can change neck, wrists, socks, and boots to suit your requirements. We can add pockets, fly zips, valves, Kevlar® reinforcement in high wear areas to name a few...

Please note: tailoring options are dependent on the type of stock suit you have purchased from us (neoprene, membrane or rubber).

Suit repairs.

With over 60 years of combined experience, our Repair Technicians are some of the best in the business. A dedicated and diligent team, they know how important it is that their work be perfect, every time.

Waiting times can vary dependent on our workload, however turnaround can sometimes be as fast as one day. If you need your repairs for a certain time, please advise our team of this. You can check on current time frames prior to booking suits in.

Repairs department: +44 (0) 1257 25 69 37
Opening times: Mon - Fri 8.30am to 5.00pm

Book it in. Online repair system.

We now offer a full ONLINE repair and alterations service for our suits, this can include fixing leaks, adding new parts to your suit i.e. socks, seals, pockets or alterations, trade customers registered online will receive trade pricing!

We've made it easier for you to:

1. Book in your suit - from anywhere
2. Get updates and check on progress at any time
3. Accept quotations and easily pay online

All you need to do is log in to your online account to get started with the 8 steps to book your repair, www.ndiver.com/login

Not comfortable booking it in online?

Don't worry, all suits that enter our repairs and alteration department now use the online system, once your suit(s) arrive we will book them onto your account for you, all you need to do is log in and view its progress or check the email updates that we send to the address on the account.

CYLINDER SERVICING

We are providing cylinder testing services to all customers, from individuals who dive recreationally, to large military and commercial clients.

Regulations state that all cylinders carrying compressed gases, not only diving cylinders, are required to be inspected and tested periodically. Any cylinder with a diving valve, even for surface use (airguns, paintball etc.) must be tested as a diving cylinder as it could potentially be used for diving.

Cylinders require a visual test 2.5 years from the date of manufacture (as per stamped on cylinder). From the manufacture date they are also required to be Hydrostatically Tested every 5 years, with a visual inspection every alternate 5 years. This process is an ongoing cycle and will mean your cylinder should be tested every 2.5 years, alternating between the 2 tests.

What's included in a service?

- A visual check - looking for tears/damage to the regulators and/or hoses
- A pre-check - submersion test to detect any leaks
- A strip down - to inspect each part, replace any worn or damaged parts before a cycle in the Ultrasonic cleaning machine
- A complete rebuild and bench test
- A final submersion test

Turn around is approx. 4 weeks, please contact us to check our current turaround time. Fast track service available.

LIFE JACKET SERVICING COURSES

We are authorised to service, maintain and repair various life jacket types. We will inspect and pressure test your life jacket, replace out of date, faulty, or corroded parts and issue a service certificate.

All life jackets will undergo a rigorous inspection by a fully qualified technician to ensure it is fit for purpose and maximise its performance if needed in an emergency.

We advise life jackets should be serviced every 12 months by a qualified agent.

We offer servicing courses to groups and individuals, contact us for course dates +44 (0) 1257 25 69 34
