

VARILUX TRAVEL

1000 LUMEN RECHARGEABLE DIVE LIGHT

A compact, powerful and versatile torch that you can charge on the go. The Varilux Travel II torch set is full of handy features and includes an adaptor for charging from a car power outlet.

Light output is controlled via a magnetic induction switch. Pressing once switches the light on at full power – 1000 lumens' worth. At this point, output can be gradually decreased by pressing and holding the switch. When the required output is reached, releasing the switch will maintain this output. Pressing once more switches the light off.

Burn time at 1000 lumens is an impressive two hours. At the lowest setting of 80 lumens, burn time is 40 hours.

When the torch is in use, the ring around the switch emits a constant green light. When the torch is not in use, this light flashes once every five seconds. This is to help the user locate the torch when diving, for example in darkness or if it's accidentally dropped. The light will turn red when approximately 20% of the battery's charge is remaining.

The torch has a depth rating of 100 metres. This torch is compatible with our wrist mount.

Included

Varilux Travel torch, 26650 battery, smart battery charger, car adapter, spare O ring, tail cap lubricant, lanyard, hard storage case & user manual

Size: 161 x 45 mm (length x head diameter)

TORCH-VLTRAVEL-19

Specifications

- Material: Anodised aircraft grade 6061 aluminium
- Colour: Silver/grey
- LED: 1x CREE XM-L2
- LED lifespan: 100000 h
- Brightness: 80-1000 lm
- Light colour: White
- Beam distance: 1000 m
- Peak beam intensity: 30000 cd
- Impact resistance: 1 m (dropping height)
- Depth rating: 100 m
- Mode: High/dimming
- Burn time: 2 h (1000 lm), 2-30 h (1000-80 lm), 40 h (80 lm)
- Switch design: Magnetic induction
- Lens: Coated glass lens
- Size: 161 (L) x 45 mm (head diameter)
- Weight (torch): 232 g
- Weight (torch and battery): 324 g
