

FLEXI-LIGHT 2

Improved design - 100% waterproof & depth tested to 300m
Greater light output from the LED
With low power, high power & flashing modes

High intensity LED that projects light through a newly shaped flexible silicone stick.

- Output: 8 lumens
- Visible distance: up to 3km
- Depth tested: 300 meters
- Double sealed construction
- New shape flexible silicone body
- 5 colours + IRR available

Manufactured from RoHS Compliant Polyurethane material. Can be repeatedly used with use of the on/off modes.

Flexi-Lights available with:

- Adhesive backed 3M™ tape
- Adhesive backed 3M™ foam
- 3M™ hook Velcro backing

All light sticks can be used with the Northern Diver Nylon Flexi-Light Clip (shown below).

The modern alternative to chemical light sticks.

The Flexi Light Sticks have a simple press-to-operate button under the coloured marker, which activates the 4 modes.

Press 1. On / Constant Low/Half Power (40hrs burn time)

Press 2. Constant High/Full Power (22hrs burn time)

Press 3. Flashing (42hrs burn time)

Press 4. Off
