

2.4M (7'9)

INFLATABLE RAFT

With a 2-Person capacity the inflatable can be used by rescue personnel as an ideal small river/flood rescue raft but it is equally perfect for a day on the lake, whether you are fishing, camping, or just cruising! Lightweight and compact, this inflatable boat is easy to assemble and can be ready for water in no time either in an emergency or just for fun.

Northern Divers 2.4m (7'9) inflatable raft is made from a robust 8cm (3.1") DWF + commercial grade PVC material, increasing stability and performance whilst on the water. On the exterior of the inflatable dinghy you'll find 6 grab handles and guide rope. The handles and rope make transportation to and from the water a much simpler task and can be held onto whilst traveling, increasing safety. In the situation of a man overboard, the handles or rope come into effect again as they can be used to help a recovery.

FEATURES

Overall length: 240cm (94.5")
Overall width: 130cm (51.9")
Internal width: 60cm (23.6")
