

MARLIN SWIM GOGGLES

Our MARLIN Goggles are a high-performance swim goggle, engineered to be reliable, comfortable and to improve visibility in any type of conditions.

USES

- Swimming activities
- Triathlon events
- Open water swimming and sports
- Boating, surface
- On-sea operations
- Recreational
- Open water activities

The MARLIN goggles feature superior visibility, exceptional comfort, an ultra-low profile and are hydrodynamic. The MARLINs have a flexible, one-piece frame and comfortable, watertight skirt. The low profile, wrap-around design creates less drag, has greater hydrodynamics and is ideal for swimming or training. The unique lens provides UV protection and is fog and scratch resistant. The innovative easy-adjust buckle system allows for quick and easy adjustments, even while wearing the mask.

FEATURES

- Soft skirt for comfort and a leak resistant seal
- 180-degree panoramic field of vision
- Strap adjustment lever buckles for a perfect fit
- Lightweight lenses offer UVA/ UVB protection with anti-fog and anti-scratch treatments
- Low profile, contoured frame
- Size: one – adjustable
- Colour: blue
