

Bio Fins

Bio Fin - Apollo made of 100% rubber, provides a soft, comfortable foot pocket and the perfect amount of weight and flexibility for top speed - with the least amount of effort and strain on your body.

- 20 degree angle of blade ensures that the fin works with the natural resting angles of ankle and knee
- Split fin design allows for more power and less effort than any other fin
- Increased maximum speed and reduced fatigue
- Consistently rated as the fastest fin in the water
- Easy quick release buckle system with finger loop
- Boot size: S, M, L
